Native Prairie Appreciation Week

Title: Growing a Native Prairie Garden

Speaker: Sarah Vinge-Mazer, Saskatchewan Conservation Data Centre

Summary: Native plants can provide a host of benefits to your outdoor space and to biodiversity! Join us to learn about special tips and tricks to growing native species, choosing the right plants, where to buy them, and why they are so important.

About the Speaker: Sarah Vinge-Mazer is the botanist with the Saskatchewan Conservation Data Centre where she focuses on rare plant conservation. She enjoys teaching others about Saskatchewan's amazing natural flora and the benefits of growing these species at home.
