

**Plan for a Native Perennial Border in Regina**

-75 square feet (6.7 square metres): 15 feet long by 5 feet wide (4.5m long by 1.5m wide)

-Direct sun of 6 hours per day; dry to average soil moisture

-These flowers and grasses attract pollinators, butterflies, birds and beneficial insect predators

-Use plan as is, in smaller sections, or as ideas for plant combinations

Scale 1:30

1cm:1ft.

Front of Bed

| Plant Common Name        | Scientific name                | Flower Period | Flower Colour | Height   |
